- chat. quikscreeentrading.com (IP Address 38.126.22.183)

Port 22 for on demand application client log uploads

- dev1. quikscreeentrading.com (IP Address 38.126.22.184)

Future Changes - Future changes would be made in the following ranges.

38.126.22.24/29 , 38.126.22.128/25 , 216.86.148.176/29 , 208.117.1.0/25 and 209.117.56.0/27

ADDITIONAL WEB CONTENT

In some cases, your internal Proxy Server information will need to be entered into the Server section in the login box for the user to be able to access important weather and trade reports information. (see figure below).

The HTTP Proxy settings are accessed from the initial Login Screen when loading QT. Select the NETWORK button in the bottom center of the Login display to access these settings.
